

Faster Payments. Better Visibility.

Smarter Time recording and Billing

Structure your law firm's time recording, billing, and payment workflows in one unified platform.

Legal Billing • Time Recording • Accounting Integrations

About Bilr

Bilr is a comprehensive legal billing and timekeeping platform designed for law firms, legal departments, and legal service providers worldwide.

From time recording to invoice generation, payment tracking, and accounting integrations, Bilr helps firms improve billing accuracy, accelerate collections, and gain complete visibility into their financial performance.

Are You Facing These Challenges?

- Missed billable hours and revenue leakage
- Attorneys recording time late or inconsistently
- Multiple billing arrangements creating complexity
- Manual invoice preparation consuming valuable time
- UTBMS coding errors and compliance issues
- LEDES invoice rejections and payment delays
- Billing and accounting managed in separate systems
- Difficulty tracking payments across matters

These challenges can lead to up to 6–11% revenue loss per invoice.
