

Bilr™

Making Billing Easy...

If you are processing bills and invoices on behalf of your vendors/suppliers or clients, **Bilr is the answer.**

Lowering operational costs will help to improve your margins through internal efficiencies and removing redundant/manual processes, with the latest digital time recording and invoice creation tools out there: - BILR.

Bilr costs you nothing to implement.

Bilr data can also be fed into your current accounts payable/financial systems via API or other secure transmittal methods.

Easily implemented with a tried and tested step by step plan, Bilr can alleviate a lot of effort and cost for you.

Main Benefits:

Zero cost to the client

Reassign employees to more value added tasks, or implement reduction in force

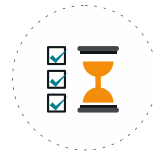

Streamline and lower operational costs in processing vendor invoices

Place responsibility on vendors/suppliers to provide electronic bills/invoice and supporting records

Collecting valuable expense and billing data across multiple vendor/supplier categories

ROI delivered from month 1 of implementation

Enhance your data analytics on spend management
